Objective Summary

Experienced civil engineer with a strong background in infrastructure projects and site supervision. Demonstrated expertise in enhancing project efficiency and sustainability through innovative solutions and effective management practices.

Professional Experience

Cipta Bina Sdn Bhd

Civil Engineer – Kuala Lumpur (01/01/2023 – 31/12/2025)

- Spearheaded site operations for a multi-storey commercial project, achieving a 15% reduction in construction time through effective resource management and strategic planning.
- Coordinated and supervised subcontractors, enhancing collaboration and communication, which resulted in a 20% increase in project efficiency and adherence to safety standards.
- Implemented rigorous project timelines and quality control measures, ensuring 100% on-time completion while maintaining compliance with industry regulations and client specifications.

Perunding Teguh

Site Engineer – Selangor (01/01/2021 – 31/12/2023)

- Supervised structural works for a residential housing project, ensuring compliance with safety regulations and quality standards, resulting in a 20% reduction in rework and a 15% increase in project efficiency.
- Managed site inspections, coordinating with contractors and stakeholders to identify and resolve issues promptly, which led to a 30% decrease in project delays and enhanced overall project delivery timelines.
- Implemented quality control measures during construction phases, achieving a 95% pass rate on inspections and significantly improving client satisfaction ratings for the residential housing project.

Dinamik Consult

Junior Engineer – Johor Bahru (01/01/2019 – 31/12/2021)

- Assisted in civil design calculations, contributing to a 15% reduction in project costs through optimized material selection and efficient design methodologies.
- Conducted detailed project costing analyses, enabling accurate budget forecasts that improved financial planning and reduced overruns by 20%.
- Prepared comprehensive construction drawings that enhanced project clarity, resulting in a 30% decrease in on-site errors and rework during the construction phase.

Achievements

- Spearheaded a cost-saving initiative that reduced material waste by 18%, saving the company RM120,000 annually through improved inventory forecasting and supplier negotiations.
- Designed and implemented a project tracking dashboard that increased team productivity by 25% and shortened project delivery timelines by two weeks on average.
- Led a cross-functional team of 8 to deliver a civil infrastructure project 10% under budget and ahead of schedule, earning recognition from senior management for outstanding execution.

Extracurricular Activities

- Vice President, UTM Civil Engineering Society (01/01/2018 – 31/12/2019)
