TECHNICAL SKILLS

Python

Java

AWS Cloud Services

Docker & Kubernetes

SOFT SKILLS

Communication

Teamwork

Problem Solving

Adaptability

EDUCATION

UM
2024
Bachelor of Computer Science

REFERENCE

ABOUT ME

Results-driven Software Engineer with over 5 years of experience in designing, developing, and deploying scalable applications. Expertise in leveraging advanced technologies to tackle complex challenges and deliver exceptional software solutions. Committed to driving innovation and enhancing user experiences through high-quality development practices.

EXPERIENCE

Petronas

Data Engineer – Kuala Lumpur (2022 - present)

- Designed and implemented robust ETL pipelines, improving data processing efficiency by 30% and reducing data latency for analytics teams.
- Collaborated with cross-functional teams to gather requirements, resulting in a 25% increase in data accuracy and reliability for business intelligence reporting.
- Optimized existing data workflows, achieving a 40% reduction in processing time and enhancing overall system performance.
- Developed automated data quality checks, decreasing data errors by 50% and ensuring compliance with industry standards.
- Integrated cloud-based solutions, enabling scalable data storage and processing capabilities, which supported a 20% increase in data volume handling.
- Conducted performance tuning of SQL queries, resulting in a 35% improvement in query response times for end-users.
